

Sustainable Agricultural System in Asia: Strengthening Human Resource Development Program in Universities

Contents

Foreword.....	2
Message from the Editors.....	3

Chapter 1. Sustainable Bioproduction Systems

Cultivar Requirement for Sustainable Production of Rainfed Lowland Rice in SE Asia..... <i>Shu Fukai</i>	9
Rootcrops as Food, Feed and Industrial Materials: The Challenge to Address Their Production and Post-harvest Needs..... <i>Jose R. Pardales Jr., Akira Yamauchi, M. A. Quevedo, and Mutsuyo Kadohira</i>	17
Status and Prospects of Asian Forests and Forest Products..... 29 <i>Sri Nugroho Marsoem</i>	
Nutritional Management to Control Environmental Impact in the Sustainable Animal Production..... <i>InKee Paik</i>	31
Case Study on Development of the Sustainable Agricultural System for Various Agro-ecosystems Through Assessment of Nitrogen Flow..... <i>Osamu Ito, Kazuyuki Yagi, Yasukazu Hosen, Naruo Matsumoto and Takeshi Watanabe</i>	47
Toward Sustainable Agricultural Production System: Major Issues and Needs in Research..... <i>Akira Yamauchi</i>	53

Chapter 2: Biotechnology for Sustainable Bioproduction

Regulation of Carbon Metabolism in Relation to Plant Productivity..... <i>Steven C. Huber</i>	57
Control of Nitrate Uptake/Assimilation and Plant Productivity..... <i>Tatsuo Omata</i>	59
Enzyme Engineering for Lipids..... <i>Tsuneo Yamane</i>	61
Protective Role of Dietary Antioxidants in Oxidative Stress..... <i>Jeng-De Su</i>	69
Biotechnology for Insect Pest Control..... <i>Tipvadee Attathom</i>	73

Biotechnology of Crop Production and International Consortium.....	85
<i>Tetsuko Takabe</i>	
Chapter 3: International Collaboration for Sustainable Bioproduction	
Perspectives for Development of Research and Education by International Collaboration in Graduate School of Bioagricultural Sciences, Nagoya University.....	91
<i>Norihiro Tsukagoshi</i>	
Tasks in Research, Education, and International Collaboration in Agriculture Biotechnology at Kasetsart University With Special Emphasis on the Role of Former Students Who Studied Abroad.....	95
<i>Supat Attathom</i>	
The Role of SEAMEO SEARCA in Human Development in Southeast Asia.....	99
<i>Ruben L. Villareal, Gil C. Saguiguit Jr., and Editha C. Cedicol</i>	
Experiences and Prospects of AICAD About International Cooperation Including South-South for Agricultural and Human Development.....	107
<i>Theodosy Msogoya and Katsuhiko Kitagawa</i>	
Human Development and Collaboration With Universities in Japan International Research Center for Agricultural Sciences (JIRCAS).....	113
<i>Tomohide Sugino</i>	
Evaluation of ODA to Build and Strengthen International Cooperation : Towards Constructing an International Framework of Evaluation for International Cooperation.....	123
<i>Koichi Miyoshi</i>	
Role of International Cooperation Center for Agricultural Education (ICCAE) in Capacity Building for Sustainable Agriculture.....	129
<i>Tetsuo Matsumoto</i>	
Summary, Highlights of Discussion and Closing Statement	
Sustainable Agricultural System in Asia: Student Development Towards Global Standard....	137
<i>Hiroyuki Takeya</i>
